

Hands Only CPR/AED Training

mCORE™ has teamed up with the American Heart Association to provide the “CPR ANYTIME PROGRAM.”

The program is funded by The mCORE foundation and is provided at no charge to our school screening partners. The goal is to increase bystander education and the number of people in a community that are prepared to help in cardiovascular emergencies.

Ohio House Bill 113

Passed on September 14, 2016, to require public schools in Ohio to provide CPR-AED instruction prior to high school graduation.

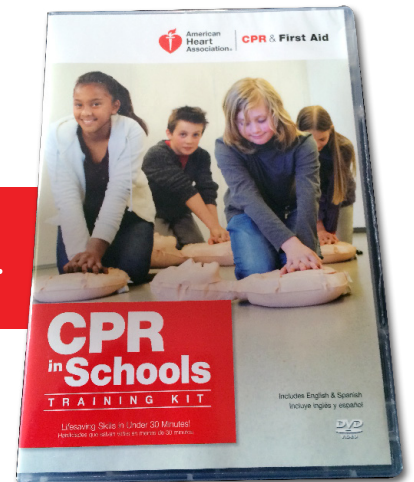

Program Details

The “CPR- ANYTIME PROGRAM” is to provide a basic understanding and opportunity to practice CPR and use of an AED in a classroom setting and is not a certification course. The class is approximately 35 minutes long with video and practice time. Each student receives a certificate of completion for the program. It is perfect for health class curriculum’s, teams or booster groups.

How do you bring the program to your school?

All mCORE screenings partners can take advantage of this free life-saving opportunity. Simply contact mCORE Partnership Development to schedule your class date.

Learn CPR and learn how **YOU** can save a life.
